Road Board

Over the last seven years your PWS Road Board has upgraded it's equipment to improve our maintenance and repair capability and to improve the efficiency of our work on the roads. In 2008 we added a new one-ton truck with dumping capability and an 8½' snowplow. In 2009 we upgraded our tractor to improve our ability to clean ditches, scrape roads and load materials into the dump truck. In 2011 we replaced a small 15-year-old tired pickup truck with used ¾ ton 2005 truck with an 8' snow blade. Last year we built a water tank/pump system to mount in the pickup for maintenance work on our roads. That system is also available as a backup grass fire suppression system to the PWS fire department. All of our vehicles are now diesel powered. The upgrades in our equipment have helped us improve the quality of the roads in our community.

As always, please report any road problems or requests on the **Road Board message service, 895-3848**. Board meetings are held on the 1st Tuesday of each month at 7:00 PM in the Firehouse. Visitors are welcome. Please enter through the back door. Next meetings are February 3rd and March 10th.

PSPOA

Next PSPOA Board of Directors meeting is Wednesday, March 18th, 7:00 pm at the Fire Station Community meeting room.
