

Pinewood Springs Newsletter - June 2019

Water District

Included in this mailing is the 2018 Consumer Confidence Report. Please let us know if you have any questions.

With the higher temperatures and the heavy runoff, the water from the river is still showing signs of color from tannins. It will take a few more weeks to clear up. The water is treated before it is placed in our storage tanks and then it is tested weekly according to the Colorado Health Department standards for public-water systems.

Our next meeting is **June 26th** at the Fire Station Community room. To be included on the next agenda, call Gabi at 823-5345. Please visit our website at www.pswd.com to view the District's Rules and Regulations and other interesting information.
